## THE CREAM THAT MAY REPLACE EYE SURGERY

A new topical cream, dubbed XAF5 Ointment, which isn't expected to become available until 2018, may offer another option for fighting fat under the eyes, which leads to bags and bulging. When applied to under-eye bags, the proprietary active ingredient penetrates the fat to shrink the size of the fat cell.

The smaller the fat cells, the less bagging there is, and results can be seen in about five weeks. If brought to market, XAF5 Ointment would be the first prescription-strength medication of its kind.

## STAMP YOUR WAY TO BETTER SKIN

One of the coolest things I've seen recently is an underground skin movement of sorts that is sure to catch on like wildfire. A mixture of saline, lidocaine, hyaluronic acid and neuromodulators is put into a handheld, microchanneling device and stamped onto the face by a doctor post-injection. While the treatment is yet to be named, New Orleans dermatologist Mary Lupo, MD, says, "The mixture is delivered deep into skin to give a hydrating effect and inhibit sweat and oil glands, which minimizes pore size."

FROM THE FUTURE OF ANTI-AGING TO COOL NEW PRODUCTS, THIS IS BEAUTY TO ME.

### 3 NEW PRODUCTS YOU HAVE TO TRY

1

**Guerlain Abeille Royale EyeTech Serum, \$130, [bloomingdales.com](http://bloomingdales.com)**

As if this superluxe serum wasn't enough to get me hooked, the unique take on the applicator made me switch my standby scoop-out-of-the-jar eye cream for something new. I love how this product is designed so you can fit your finger perfectly on the applicator to massage the serum in just right.

2

**Urban Decay Mascara Resurrection, \$16, [macys.com](http://macys.com)**

Every now and then I reapply mascara throughout the day, and my lashes almost always end up looking worse—think crunchy, clumpy and spider-like (I always forget nothing good comes from this). But, this clear, lash-reviving serum softens my lashes to "reactivate" my mascara for lashes that are long, separated and full of volume.

3

**Shu Uemura Wonder Worker, \$33, [shuueumura.artofhair-usa.com](http://shuueumura.artofhair-usa.com)**

The idea of air-drying my hair isn't one I embrace, but as a beauty editor, I had to try out the new products that promise style and zero frizz when you forgo heat. I sprayed this semi-thick primer onto my hair and let it sit for 20 minutes before blow-drying it. Not only did it smell delicious, but I was left with soft, shiny, pin-straight hair for three days!
